

## CHAPTER 3 Power of common sense

1. If something still works, do not repair it but show respect and appreciation for what still works.
2. If something does not or no longer or does not work well enough, after you have tried it for a while, stop and do not drone on but learn
3. from this, and try something else.  
If something works well enough, well, or better,
4. keep doing it and/or do more of it.  
If something works well enough, well, or better,  
learn it from someone else and/or offer it to someone else.
